COMMERCIAL KITCHENS

State-wide Directory

Commercial kitchens are licensed food-production facilities designed to meet health, safety, and zoning requirements. They may be used by food manufacturers, specialty food crafters, meal-preparation businesses, food-truck operators, farmers, and other food and beverage entrepreneurs. Because equipment, storage, rental rates, availability, and permitted uses vary, contact each facility directly to confirm that it can accommodate your business.
If you operate a licensed commercial kitchen available to Idaho food businesses—or know of one that should be included—contact Idaho Preferred at IdahoPreferred@agri.idaho.gov.
